

I would like to start my introducing myself, I am the President of the BC Sno-Riders and we groom and maintain snowmobile trails in Broome and Chenango Counties. Our goal is to enhance the comfort and the enjoyment of safe snowmobiling in our area and your support through “adopting” a bridge can help.

As beginner rider riding in the Tug Hill and Central Square area I noticed they had local businesses sponsoring different sections of their trail. I found it ironic that one mobile home dealership was sponsoring a section of trail next a totally different dealership. Now that is one way to get noticed and remembered, I thought. I also remember seeing a NAPA sign next to an intersection and that got me to thinking this is a great way to let people know what types of businesses we have right here at home.

Would you like to “adopt” one of our bridges? The 18” X 24” signs would go up in December and be removed in April. The signs will be located on the right hand side of the bridge in one direction for only \$50.00. You can “adopt” the whole bridge for only \$75.00 for both directions. The sign would have your Business name and the town that you are located in. As a token of our appreciation we will list you as a supporting business on our website, www.bcsnoriders.snowclubs.com. We have hundreds of local riders, riders from out of town and out of state that snowmobile on our trails. That makes this an irresistible deal.

Thank you in advance for your support.

Sandy
